

2023 Ryder Cup: No Mads GC vs. LLESA Golf NG

The Course at Wente Vineyards

October 7-8, 2023

Format

On Saturday, we'll be playing 2-person team matches composed of 9 holes of four-ball (aka. best ball) followed by 9 holes of foursomes (aka. alternate shot). Both formats are **match play**, i.e., you either win, tie, or lose a hole and play it as a regular 18-hole match (like we do in summer match play). As in Ryder Cup, if there's a tie after 18 holes, you split the point.

I'm sure all are familiar with four-ball—the team score on each hole is the low net score. In foursomes, you designate one player to tee off on even holes (10, 12, 14, 16, 18); the other player tees off on odd holes (11, 13, 15, 17). You then alternate who hits the ball until it is holed out or conceded. The decision who tees off on odd vs. even holes does not need to be made until hole #10. Penalty strokes don't count toward the alternating order; the next player to play a shot is the one that did not hit the previous shot. The same goes for provisional balls; always alternate actual strokes on each hole. For complete rules, see <https://www.usga.org/content/usga/home-page/rules/rules-2019/rules-of-golf/rule-22.html>.

Sunday will be singles match play, just like in Ryder Cup, with two concurrent matches per foursome.

No Mads won the cup last year, so LLESA must win 9 ½ points to claim the trophy this year.

Handicaps

Four-ball will be handicapped at 90% per USGA recommendations. You then play strokes off the lowest handicapper of four. In foursomes, there's a single handicap for the team that is 50% of the combined individual handicaps. In both cases, we're computing 18-hole handicaps and marking pops according to hole handicaps, as we would normally do. But note that handicaps change after the first nine holes, when the format changes to foursomes. In singles, we use 100% of handicap.

I've attached a spreadsheet with handicaps and number of pops. As an example, in team match #1, Peter (PH=2) is the low handicapper and gets no pops in four-ball; Cohl (PH=4) gets two (4 – 2 = 2) pops, but only one of them is assigned to the front nine (the HCP 1 hole). On the back nine, Peter and Cohl have to give six (9 – 3 = 6) pops in foursomes, but only three of those are allocated to the back nine (HCP 2, 4, and 6). If this sounds confusing, the attached, printable scorecards (with abbreviated player names) are marked for you to simplify matters.

Course and Tees

We're playing [The Course at Wente Vineyards](#). A scorecard is attached that lists yardages and hole handicaps. We will be playing the **blue/white combo tees**. The scorecards show in color which holes to play from the whites (#1, #8, #9, #12, #17, #18) and which holes to play from the blues. Hole #16 has been modified/shortened due to construction. Note that carts and range balls are included.

Course Rules

Play according to USGA rules. I have cleared with Dean that we will also be using our [LLESA local rules](#) (primarily the OB/lost ball rule and course damage rule). In singles play, no advice may be given—you're on your own. In team play, you may give advice to your partner.

After the match, please turn your scorecard in to Peter at the club house. On Sunday, I suggest we all stick around until the very end to celebrate the winning team.

Payment

Each player must pay the course \$200 on Saturday. Sunday alternates should reimburse the player they are substituting for \$100.

Tee Times

Saturday team matches

11:00 Lindstrom-Hatala v. Urone-Desilva
11:10 Griffin-Conner v. Lazik-Su
11:20 Hurd-Negrete v. Root-Olund
11:30 Alvarez-Smith v. Arkebauer-Zieske
11:40 Greene-Oravetz v. Schult-Garard
11:50 Watkins-Rubke v. Leval-Valdez

Sunday singles matches

11:30 Lindstrom v. Urone, Hatala v. Desilva
11:40 Jones v. Lazik, Griffin v. Su
11:50 Greene v. Root, Hurd v. Arkebauer
12:00 Negrete v. Schult, Alvarez v. Garard
12:10 Smith v. Zieske, Watkins v. Olund
12:20 Oravetz v. Leval, Spooner v. Valdez

Pace of Play

While we should have plenty of daylight to finish, do keep pace of play up. If a team match is complete, consider ending your round if you're holding the group behind up. Otherwise, feel free to finish 18 holes even if the match is over.

The goal should be to finish your round in 4h30m or less. Our club (LLESA) continually struggles with pace of play, so do be mindful of this and play ready golf when the format allows for it. Don't sit in the cart and wait for your partner to hit; pick a few clubs and walk to your ball so you're ready to hit when it's your turn. Keep in mind that in match play, you have to follow order of play (the team/player who most recently won a hole tees off first; whoever is farthest from the hole plays first). Within a team, you can play in any order you like, e.g., to give your partner a read.

LLESA Golf NG Local Rules

August 27, 2021

Unless otherwise stated, the set of local rules contained in this document apply in all LLESA Golf NG events, including monthly tournaments, summer match play, and twilight golf league.

Lost Ball and Out of Bounds

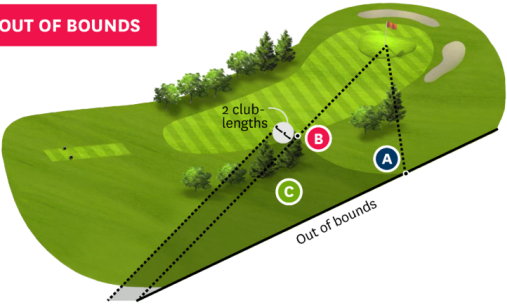

As of 2019, USGA allows for a local rule that provides an alternative to playing a provisional ball when a ball is suspected to be lost or out of bounds. Our club has adopted this rule for all of our competitions.

In this case, the player estimates where the lost ball finished or where it crossed out of bounds, moves to the nearest spot at the edge of the fairway, no closer to the hole, and then drops within two club lengths. The penalty for this is two strokes (one penalty stroke + one drop). This is the same as if the player had re-teeed and hit their second tee shot to where the ball is dropped. See the graphic below.

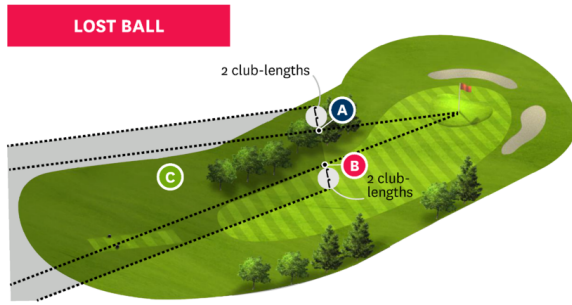

GOLF'S NEW RULES: STROKE AND DISTANCE

A new Local Rule will provide an alternative to stroke-and-distance relief for a ball that is lost outside a penalty area or out of bounds. This new Local Rule will be available beginning January 1, 2019.

BALL OUT OF BOUNDS

LOST BALL

If the Local Rule is in effect, you can still take stroke-and-distance relief, but you will now have the following additional option that comes with a penalty of two strokes:

- A DETERMINE SPOT** where your ball went out of bounds (left diagram) or is likely to be lost (right diagram).
- B FIND NEAREST FAIRWAY EDGE** no closer to the hole.
- C DROP YOUR BALL IN SHADED AREA** as defined on one side by a line from the hole through point A and on the other side by a line from the hole through point B, and not nearer the hole. The relief area is extended on both sides by two club-lengths.

This Local Rule is not intended for higher levels of play, such as professional or elite amateur level competitions.

© 2018 R&A Rules Limited and the United States Golf Association. All rights reserved.

As an example, if the tee shot goes out of bounds, the player counts one penalty stroke and a drop, and will thus play their fourth shot after dropping (tee shot + penalty stroke + drop = three strokes).

Note that if the player chooses to play a provisional ball instead, then this stroke-and-distance option is not available for the original ball, but can be applied to the provisional ball if it also is lost or out of bounds. The player will in this case play their sixth shot after dropping (tee shot + penalty stroke + provisional shot + penalty stroke + drop = five strokes).

Also note that this rule cannot be applied if the original ball is found in bounds but is unplayable. In this case, rule 19 for an unplayable ball is used (e.g., drop within two club lengths, drop on a line with the pin, or re-tee).

Preferred Lies (Winter Rules)

When preferred lies (aka. 'winter rules', 'lift-clean-and-place') are in effect, our club uses the following rules.

Balls in the fairway (Model Local Rule [E-3](#)) You may lift, clean, and place the ball if it is in the fairway, including collars and aprons around the green. When doing so, the ball must be placed within **one club length**, no closer to the hole. The ball may **not** be lifted from the fringe and placed on the green. It may, however, be placed in the rough.

Balls in the rough (Model Local Rule [E-2](#)) If the ball is in the rough (but not in a penalty area), then you may lift, clean, and **re-place** the ball in the **exact same spot**, recreating the lie (e.g., replace it deep into the rough if that's where you found it).

Balls in bunkers If the ball is in a bunker, then you may **not** lift or clean the ball (but see the section below on COVID rules). If the ball is in standing water, then you get to take free relief **inside the bunker** by dropping at the nearest point of relief. If the whole bunker is filled with water, you get to take maximum relief, at the point with the least amount of water. You may also, under the penalty of one stroke, drop outside the bunker on a line with the pin, no closer to the hole. See rule [16.1c](#).

Course Damage

In case of soggy conditions, e.g., due to rain or over watering, there may be occasional man-made course damage such as tire tracks or footprints where the ground is deformed. Such areas, when not marked, are to be treated as ground under repair, for which the player receives free relief (drop at nearest point of relief, no closer to the hole). See Model Local Rule [F-4](#). Note: Course damage does not include bent grass in the rough, divots, footprints in bunkers (see COVID rule below), dirt patches or ruts from natural causes, or merely soggy ground (which is covered by casual water rules).

Left: Course damage caused by tire tracks (free relief).

Right: Natural dirt patch (no relief unless marked).

Aeration Holes

If the ball ends up in an aeration hole on the green or in the fairway, the player receives free relief. When in the fairway, drop the ball at the nearest point of relief (re-drop until the ball is not in an aeration hole). When on the green, place the ball at the nearest point of relief. See Model Local Rule [E-4](#).

COVID Rule for Bunkers

Some courses have removed rakes from bunkers, resulting in footprints and uneven sand. **When rakes are not available**, our club allows you to lift the ball—without cleaning it—smooth the sand with your foot (not with your hand!), and then replace the ball in the same spot, recreating the lie. For example, if you have a fried egg, you must push the ball back into the sand after smoothing.

COVID Rule for Pins and Foam Inserts

Many courses do not allow touching/removing the pin—such rules must be followed. Some courses further utilize foam inserts (pool noodles) or similar to make retrieving the ball easier without touching the pin. In some cases, the foam extends nearly to the rim of the hole (see below). The ball is deemed holed only if (1) the ball is in the hole and entirely below the surface of the putting green or (2) the ball comes to rest touching the pin or foam, with any part of the ball below the surface of the green (see rule [13.2c](#)). If the ball bounces off the pin or foam and does not stay within the hole, it is not holed.

Example of unforgiving foam insert.

Welcome to The Course at Wente Vineyards.

Designed by golfing great Greg Norman, The Course at Wente Vineyards is a Certified Audubon Cooperative Sanctuary. With three distinct topographies – native woodlands, mature vineyard and rolling hills of natural grasslands – The Course at Wente Vineyards offers extraordinary visual panoramas and a diversity of play unmatched in the Bay Area. Uniquely situated on a working vineyard estate, The Course is adjacent to The Grill and the winery's Event Center and Tasting Lounge. We hope that you'll enjoy some wine tasting and a delicious meal during your visit to Livermore Valley wine country.

Cheers!

Chief Executive Officer, Fourth Generation Winegrower

USGA RULES GOVERN ALL PLAY

Target time for play: 4-1/2 hours.

Please help us preserve our natural beauty and wildlife by using caution when entering native grasses and vineyard areas.
